Evergreen Topics...

- Within the solutions and resources you provide, it's extremely important to pay attention to evergreen markets!
- Evergreen means the topic has ALWAYS been popular.
- If they're STILL popular now and have been popular for years, you're almost guaranteed to find great content in the Public Domain.

Common Evergreen Themes

- Love / Romance
- Food / Nutrition
- Finance/Saving Money
- Parenting / Education
- Weight Loss / Fitness
- Jobs / Careers
- Pets
- Hobbies / Arts

Hidden in Plain Sight...

- Where do these “solutions” come from?
 - Come from your own knowledge and experiences.
 - Come from the knowledge and experience of others.
 - **Come from a BLEND of your knowledge AND others.**
- Each of us has some form of specialized knowledge.
- Combine that with the knowledge and experiences from MILLIONS of other smart, creative people from all walks of life who have gone before us and who live today!
- **The ultimate source for solutions and resources is the Public Domain!**
- We think we have to “reinvent the wheel” but we don’t.
- Understand that these solutions can take on many forms.
- The SECRET is in FINDING the right solutions!
- “There is nothing new under the sun.”
- What CAN be new is the **application** of that solution!

Information Alchemy

- The SECRET is to combine the old (the Public Domain) with the new (our specialized knowledge).
- Why is this a better approach?
 - It's easier to start with something than to start from scratch.
 - Have access to the existing, proven answers from millions of brilliant minds!
 - The sourced solutions are already familiar to us at a deep level.
 - There is a nearly limitless supply!

In the United States alone:

- 85+ Million Books (Over 2 Billion Worldwide).
- 200,000+ Magazines = Millions of Articles.
- 8+ Million Patents.
- 100+ Million Images (Photographs, Art, etc.).
- 1,000+ Government Websites, Books, Movies, etc.

Finding the Resources

- The solutions people seek are sometimes represented by needed resources.
- When the Great Gold Rush of 1849 happened, who made the MOST money?
- Product creation (digital or physical) is ultimately just a collection of what?
- There is NO greater solution for finding these resources than the Public Domain!

Testimonial

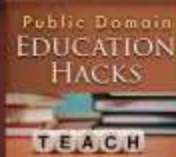

“I think it’s important for me to speak on this since I own every PD product you ever put out. Even if there has ever been any overlap with iterations, the absolute gold, platinum, and titanium nuggets Tony delivers is worth into the potential millions of dollars if and when put into action. I have never once felt oversold or under-delivered from Tony. Much the opposite, he over-delivers to ridiculous amounts - almost to the point of feeling there are multiple courses found in one... and that’s before you even add in his kick-ass bonuses :-)” ~Mtano

Testimonial

“All of your courses/webinars/trainings over-deliver with content and insight that is, to coin Mtano’s phrase, “kick a**”. :) Your perspective is always so refreshing. Your insights resonate and your repeat customers should be a testament to your success as a teacher. Thanks for your continuing education! :) My folder, Tony Laidig University, continues to expand on a regular basis! LOL” ~Liz
